

Exploring Creation With General Science

Table of Contents

MODULE #1: A Brief History of Science	1
Introduction	1
The First Inklings of Science (From Ancient Times to 600 B.C.)	1
True Science Begins to Emerge (600 B.C. to 500 A.D.)	3
Experiment 1.1: Density in Nature	4
Experiment 1.2: Atomic Motion	6
Three Other Notable Greek Scientists	8
The Progress Of Science Stalls For A While (500 A.D. To 1000 A.D.)	12
Experiment 1.3: A Chemical Reaction	12
Science Begins To Pick Up Steam (1000 A.D. To 1500 A.D.)	16
The Renaissance: The “Golden Age” Of Science (1500 A.D. To 1660 A.D.)	18
“Experiment” 1.4: Mapping the Paths of the Planets	20
The Era of Newton (1660 A.D. to 1735 A.D.)	23
The “Enlightenment” and the Industrial Revolution (1735 A.D. to 1820 A.D.)	24
The Rest of the Nineteenth Century (1820 A.D. to 1900 A.D.)	26
Modern Science (1900 A.D. to the Present)	29
Summing It Up	31
MODULE #2: Scientific Inquiry	35
Introduction	35
What Science is NOT	35
Experiment 2.1: How Does Weight Affect the Speed at Which Objects Fall?	35
Experiment 2.2: Learning More About Weight and the Speed at Which Objects Fall	36
The Scientific Method	40
Experiment 2.3: The Broken Flashlight	42
Failures of the Scientific Method	44
The Limitations of Science	48
Science and Christianity	49
MODULE #3: How to Analyze and Interpret Experiments	59
Introduction	59
Experiments and Variables	59
Experiment 3.1: A Floating Egg?	60
Using A Series Of Experiments	64
Experiment 3.2: Which "Boat" Will Move?	64
Experiment 3.3: What Does Soap Do To Water? - Part 1	66
Experiment 3.4: What Does Soap Do To Water? - Part 2	67
Recognizing Experimental Variables When They Are Not Obvious	70
Interpreting the Results of Experiments	74

MODULE #4: Science, Applied Science, and Technology 83

Introduction	83
The Distinction Between Science, Applied Science, and Technology	83
Simple Machines	87
The Lever	87
Experiment 4.1: The Lever.....	87
The Wheel And Axle.....	93
The Pulley	95
Experiment 4.2: A Simulaton of Using Multiple Pulleys	96
The Inclined Plane.....	99
The Wedge	100
The Screw.....	101

MODULE #5: The History of Life – Archaeology, Geology, and Paleontology 109

Introduction	109
How Do We Learn About the History of Life?.....	109
Archaeology and History	110
The Internal Test	114
The External Test	118
The Bibliographic Test.....	122
Archaeology in the Absence of Historical Documents	124
Relative Dating and the Principle of Superposition.....	128
What Do We Know About Human History?.....	130

MODULE #6: Foundations of Geology 135

Introduction	135
Soil, Rocks, and Minerals	137
Experiment 6.1: "Growing" Crystals.....	138
Strata In Sedimentary Rock.....	140
Experiment 6.2: Separation of Sedimentation.....	142
Weathering Of Rocks	144
Experiment 6.3: Physical Weathering: The Power of Plants	144
Experiment 6.4: Chemical Weathering	145
Erosion	147
Experiment 6.5: Erosion.....	148
Bringing It All Together: The Basic Structure of the Grand Canyon	152

MODULE #7: The Fossil Record	159
Introduction	159
The Making of Fossils Part 1: Casts and Molds.....	159
Experiment 7.1: Making a Fossil Cast	160
The Making Of Fossils Part 2: Petrification.....	162
Experiment 7.2: Minerals in Water and Evaporation.....	162
The Making Of Fossils Part 3: Carbonized Remains	164
Experiment 7.3: A Model of the Carbonization Process.....	165
The Making of Fossils Part 4: Avoiding Decomposition.....	166
Three General Features of the Fossil Record	168
A Fourth General Feature of the Fossil Record	172
Geology and Paleontology from the Uniformitarian Perspective	174
Geology and Paleontology From the Catastrophist Perspective	177
Uniformitarianism or Catastrophism: Which View Is Correct?.....	180
 MODULE #8: Uniformitarianism and Catastrophism	 185
Introduction	185
Uniformitarianism and the Geological Record	185
“Experiment” 8.1: A Simulation of Using Index Fossils to Order Rock Layers	186
Uniformitarianism and Evolution.....	191
Catastrophism and the Geological Record.....	194
Catastrophism and the Fossil Record	199
Uniformitarianism or Catastrophism: Which Is Better?	203
Evolution: Can It Provide Evidence for Uniformitarianism?.....	208
 MODULE #9: What Is Life?	 215
Introduction	215
DNA and Life.....	215
The Structure of DNA	218
Experiment 9.1: Building a Model of DNA	220
Energy And Life.....	223
Experiment 9.2: Finding Food in Plants.....	223
Experiment 9.3: A Simple "Self-Sustaining" System	225
Sensing And Responding To Change.....	227
Experiment 9.4: Sensing and Responding to Change	228
Reproduction And Life.....	229
Experiment 9.5: Fruit Fly Reproduction	230
The Cell: Life's Smallest Unit	234

MODULE #10: Classifying Life	241
Experiment 10.1 - Part 1: Factors that Affect Bacterial Growth.....	241
Introduction	241
The Five-Kingdom System	243
Kingdom Monera	245
Experiment 10.1 - Part 2: Factors that Affect Bacterial Growth.....	247
Kingdom Protista.....	250
Kingdom Fungi.....	252
Experiment 10.2: Yeast is a Decomposer	255
Kingdom Plantae	256
Experiment 10.3: Vegetative Reproduction	256
Experiment 10.4: Turgor Pressure	258
Kingdom Animalia.....	260
MODULE #11: The Human Body: Fearfully and Wonderfully Made	265
Introduction	265
The Superstructure of the Human Body.....	265
Bones.....	267
Experiment 11.1: Minerals in Bone	267
Skeletons In Other Organisms.....	271
Skeletal Muscles.....	273
Smooth Muscle And The Cardiac Muscle	279
Muscles And Movement In Other Organisms.....	281
Experiment 11.2: Phototropism and Gravitropism	281
Skin.....	282
Experiment 11.3: Skin Color.....	286
Skin in Other Organisms	287
Summary	288
MODULE #12: Energy and Life	293
Introduction	293
Life's Energy Cycle	293
How Do Organisms Get Energy From Food?	296
Experiment 12.1: What Combustion Needs.....	297
Experiment 12.2: The Products of Combustion	299
What Actually Gets Burned For Energy?	302
Energy Use In The Body	306
Experiment 12.3: Body Temperature.....	307
Calories and Food.....	308
Metabolic Rates Throughout Creation	310
How Combustion Works in Living Organisms.....	312

MODULE #13: The Human Digestive System..... 319

Introduction 319
The Process of Digestion..... 319
Experiment 13.1: Seeing a Part of the Digestive Process 319
The Human Digestive System..... 320
The Mouth, Pharynx, And Esophagus 323
The Stomach And The Small Intestine..... 326
Experiment 13.2: Stomach Acid and Antacids 327
No, It’s Not Useless! 332
The Liver, Pancreas, And Gall Bladder 333
Experiment 13.3: The Effect of Sodium Bicarbonate on Stomach Acid 335
The Micronutrients..... 337

MODULE #14: The Human Respiratory and Circulatory Systems..... 343

Introduction 343
The Human Circulatory System..... 343
The Heart and Blood Flow 347
Experiment 14.1: Measuring Your Own Cardiac Cycle 350
The Components Of Blood..... 352
Lungs And Blood Oxygenation..... 355
Experiment 14.2: The Vital Capacity of Your Lungs 357
The Respiratory System 358
Experiment 14.3: A Model of Your Lungs 359
Experiment 14.4: A Model of Your Vocal Cords 361
Circulation And Respiration Throughout Creation..... 361
Experiment 14.5: Xylem 362

MODULE #15: The Human Lymphatic, Endocrine, and Urinary Systems 367

Introduction 367
The Lymphatic System..... 367
Lymph Nodes 371
Tears 375
Experiment 15.1: Working Your Lacrimal Glands Too Hard..... 376
The Urinary System..... 377
Experiment 15.2: A Model of Kidney Function 379
The Endocrine System..... 382

MODULE #16: The Human Nervous System	387
Introduction	387
Neurons: The Basic Unit of the Nervous System	389
The Basic Layout of the Human Nervous System	393
Our “Split” Brains	398
Experiment 16.1: Determining a Person's Dominant Side	398
The Brain And Blood	400
The Peripheral Nervous System (Pns)	402
Experiment 16.2: The Pupil of the Eye	403
The Human Sense Of Taste	405
The Human Sense Of Smell	407
Experiment 16.3: The Sense of Smell and the Sense of Taste	408
The Human Sense Of Vision	409
Experiment 16.4: The Human Blind Spot	411
The Human Sense Of Touch	414
Experiment 16.5: Variation in Touch Sensitivity	415
The Human Sense of Hearing	416
Do We Really Use Only 10 Percent of our Brain?	417
Summing It All Up	418
 Glossary	 423
Appendix A.....	433
Appendix B.....	443
Appendix C.....	475
Index.....	483
