

Great Science Adventures

Discovering the Ocean

Table of Contents

1. What do we know about Earth?	6
2. What do we know about water?	8
3. What do we know about the ocean?	12
4. What is oceanography?	14
5. What is saltwater?	16
6. What do we know about the ocean floor?	20
7. What are the ocean layers?	22
8. What lives in the ocean layers?	26
9. What are waves?	28
10. What are tides?	32
11. What are ocean currents?	34
12. How does the ocean affect weather?	36
13. What is the intertidal zone and what lives there?	38
14. What do we know about life on the seashore?	40
15. What are estuaries?	42
16. What do we know about crustaceans, mollusks, and sponges?	44
17. What are the three types of fish?	46
18. What do we know about anemones, marine worms, echinoderms, and marine fishes?	48
19. What are coral reefs?	50
20. What do we know about sharks and rays?	52
21. What do we know about marine reptiles?	54
22. What do we know about marine mammals?	56
23. What do we know about pinnipeds?	58
24. What are ocean resources?	60
