

**Introduction:**

Show the students a **green** object, e.g. a green leaf. Ask them to name the **color** of the object. Ask the students to point out green objects around the room. Show them other objects with different shades of green. Repeat this with other colors: **red, blue, brown, yellow, orange, purple, black** and **white**. Have the students look at this page. Tell them to use colors to describe what they see on this page.
