## Learn with our friends:

When you see me, I will help your teacher explain the exciting things you are expected to do.

When you do actions with me you will learn how to write, draw, match words, read, and much more.

You and I will learn about matching words, listening, drawing, and other fun things in your lessons.

# PLANTS

Plants grow everywhere.  
Plants grow  
in nature,  
on a farm,  
in a garden, and  
in the house.

God helps plants grow.  
A farmer helps plants grow.  
You can help plants grow, too.

## Objectives

1. I can tell about some plants that grow in nature.
2. I can tell about some plants that grow on a farm.
3. I can tell about some plants that grow at home.
4. I can tell what plants need to live and grow.

## I. PLANTS IN NATURE

How do trees get planted  
Out there where no men go?  
Who plants all the cactus?  
Who makes the seaweed grow?

What makes all the meadow grass  
Come up each year in spring?  
We must thank God.  
It was His plan.  
He started everything.

Write the names of plants in nature.

cactus grass tree seaweed

Three horizontal blue lines for writing: a solid top line, a dashed middle line, and a solid bottom line.

Three horizontal blue lines for writing: a solid top line, a dashed middle line, and a solid bottom line.

Three horizontal blue lines for writing: a solid top line, a dashed middle line, and a solid bottom line.

## BIG PLANTS

Some plants are big.  
Trees are big plants.  
Trees grow from seeds.

Apple seeds are in apples.

Maple seeds are in "spinners."

Oak seeds are in acorns.

Can you tell about the seeds  
of a tree you know?  
Can you tell what part of a tree  
is in the soil?
