

# *Exploring Creation With Astronomy*

## Table of Contents

### Lesson 1: What Is Astronomy? ..... 1

Why Did God Create the Universe? .....	3
Calendar .....	3
God’s Signs.....	4
Stars and Planets.....	5
Solar System .....	5
Astronomers, Astronauts, and Satellites.....	7
What Do You Remember?.....	8
Your Notebook .....	9
Assignments.....	9
Project.....	9

### Lesson 2: The Sun..... 11

The Star of Stars .....	12
92,935,700 .....	12
Don’t Stare! .....	13
Revolve and Rotate.....	14
Take a Walk Around the Sun.....	14
Solar Flares and Sun Spots .....	16
Mid-lesson Assignments.....	18
Mid-lesson Activity .....	19
Creation Confirmation.....	20
The Color of God’s Love.....	20
God’s Light Shines Brighter.....	23
Solar Eclipse.....	23
What Do You Remember?.....	25
Assignment .....	26
Activity .....	26
Project.....	27

### Lesson 3: Mercury ..... 29

The Planet Closest to the Sun .....	30
Rotation and Revolution.....	31
Features of the Planet Mercury.....	32
Spacecraft to Mercury .....	34
A Trip Across the Sun .....	35
Who Named Mercury? .....	36
How to Find Mercury in the Sky .....	36
What Do You Remember?.....	36
Assignment .....	37

Activity .....	37
Project.....	38

## Lesson 4: Venus .....39

Mid-Lesson Activity.....	41
Too Much Atmosphere.....	42
Rotation and Revolution.....	42
Not a Twin.....	44
Spacecraft to Venus.....	44
The Phases of Venus.....	46
Finding Venus in the Sky.....	47
What Do You Remember?.....	47
Assignment.....	48
Activity.....	48
Project.....	49

## Lesson 5: Earth.....51

Perfect Design by a Perfect Designer.....	52
Perfect Distance.....	52
Perfect Mass.....	53
Perfect Rotation.....	55
Perfect Atmosphere.....	55
Perfect Tilt.....	57
Perfect Land.....	61
Perfect Magnetosphere.....	62
What Do You Remember?.....	63
Assignment.....	63
Activity.....	63
Project.....	64

## Lesson 6: The Moon .....65

The Moon's Phases.....	67
Lunar Eclipse.....	69
Lunar Atmosphere.....	70
Walking on the Moon.....	71
The Moon's Gravity.....	72
What Do You Remember?.....	74
Assignment.....	74
Activity.....	74
Project.....	75

## Lesson 7: Mars ..... 77

Moving to Mars .....	78
Martian Gravity .....	79
Martian Atmosphere .....	80
Moons .....	81
Martian Orbit .....	82
Martian Rotation .....	82
Liquid Water on Mars? .....	84
Finding Mars in the Sky .....	85
What Do You Remember? .....	85
Assignment .....	85
Activity .....	86
Project .....	87

## Lesson 8: Space Rocks ..... 89

Comets .....	90
The Coma .....	91
A Comet's Orbit .....	91
Creation Confirmation .....	93
Famous Comets .....	93
Meteorites .....	95
Asteroids .....	95
Asteroid Belt .....	96
What Do You Remember? .....	99
Assignment .....	100
Project .....	101

## Lesson 9: Jupiter ..... 103

Protective Mother .....	104
Going to Jupiter .....	104
Little Sun .....	105
Stormy Skies .....	105
Jupiter's Rings .....	106
Rotation and Revolution .....	106
Many Moons .....	106
Spacecraft Galileo .....	108
Finding Jupiter in the Night Sky .....	110
What Do You Remember? .....	110
Assignment .....	110
Project .....	112

<b>Lesson 10: Saturn</b> .....	<b>113</b>
Twins .....	114
Ring System.....	115
Fast Rotation.....	116
Saturn’s Moons.....	117
Cassini Mission.....	117
Finding Saturn in the Night Sky .....	118
What Do You Remember?.....	118
Assignments.....	118
Project.....	119
<b>Lesson 11: Uranus and Neptune</b> .....	<b>121</b>
Two More Gas Giants.....	122
Uranus.....	122
Moons .....	123
Eureka!.....	123
Orbit and Rotation .....	124
What Do You Remember?.....	125
Neptune.....	125
Eureka!.....	125
Number Eight or Nine?.....	126
Atmosphere.....	126
Rotation and Revolution.....	127
Moons .....	127
What Do You Remember?.....	127
Assignment .....	128
Activity .....	128
Project.....	130
<b>Lesson 12: Pluto and the Kuiper Belt</b> .....	<b>131</b>
Kuiper Belt.....	132
Pluto.....	133
Who’s Number Nine? .....	133
Hubble Space Telescope.....	133
Opposite Rotation .....	134
Winter’s Coming .....	134
Moon.....	135
What Is Pluto Anyway?.....	136
Planet Pluto or Comet Pluto?.....	136
What Do You Remember?.....	138
Assignment .....	139
Project.....	140

## Lesson 13: Stars and Galaxies.....141

Star Light, Star Bright .....	142
Black Holes.....	144
Supernovas.....	145
Variable Stars .....	146
Categorizing Stars.....	147
Light Years .....	149
Galaxies .....	150
Constellations .....	151
Gospel in the Stars? .....	153
Corruption of Truth.....	154
Constellations and Astronomy.....	154
What Do You Remember?.....	155
Assignment .....	156
Activity .....	156
Project.....	157
Project.....	158

## Lesson 14: Space Travel .....159

Let's Go to Space.....	160
Sputnik Sensation .....	161
The 1960s.....	161
The International Space Station.....	163
Building the International Space Station.....	167
Becoming a NASA Astronaut .....	168
Seeing the International Space Station .....	169
What Do You Remember?.....	169
Assignment .....	170
Activity .....	170
Project.....	172
