The Morning Make-Up

History Machine 5th grade

I decided to design a make-up
machine because I know it will help
a lot of people. It is something unusual
that hasn't been invented yet, so I
thought that it would be something
good to design. When someone is going
somewhere nice, and they want to look good
and they don't have enough time to do
everything at once, they have something that
will do it for them in five minutes!

nice tree covered, healthy forest that lay on both side
of the river has been turned into a dusty, lifeless
area with a little trickle of heavily contaminated
water.
