Learn with our friends:

When you see me, I will help your teacher explain the exciting things you are expected to do.

When you do actions with me, you will learn how to write, draw, match words, read, and much more.

You and I will learn about matching words, listening, drawing, and other fun things in your lessons.

MACHINES AROUND YOU

Lift it up.
Push it down.
Turn the wheel
Around and around.
Whatever the work
That you do,
A simple machine
Makes it easy for you.

Objectives

1. I can tell about some levers.
2. I can tell about some wheels.
3. I can tell about some inclined planes.

Here are some simple machines.
Tell what work they help you do.

Draw something you can do with a simple machine.

A large, empty rectangular box with a red border, intended for drawing.

I. LEVERS

To open a can
Or fill a pail,
To crack a nut
Or pull a nail,

Do you know
What you should use?
A lever is
The one to choose.

A lever is a simple machine.

Can you name some levers you might find in the kitchen or in a toolbox?
