

Table of Contents for *Developing Critical Thinking through Science Book 2*
Critical Thinking Books & Software

Activities 1-5—Process Skills

- Observation, Inference, and Opinion
- Classification Stretch!
- Classification—One Property
- Classification—Two Properties
- Classification—Venn Diagrams
- Connections

Activities 6-9—Force, Movement, Work, Systems, and Weight

- Force, Movement, and Work
- Forces in a System
- Earth Pull
- Forces in Other Systems
- Connections

Activities 10-13—States of Matter

- Change of State—Ice Cube Melt
- Change of State—Dissolving Seltzer Tablet
- Condensation—Changing Gases to Liquids
- Making a Gas
- Connections

Activities 14-19—Mass, Volume, and Density

- Mass, Volume, and Density—Population Density
- Mass, Volume, and Density—Squashed Cotton
- The Density of Oil and Water
- Wave Machines
- Colorful Layered Liquids
- Floating and Sinking—Ice, Alcohol, and Water
- Connections

Activities 20-26—Air Pressure—The Pressure of the Atmosphere

- Air Pressure
- The Pressure of the Atmosphere
- The Cup and the Card
- The Burning Candle
- The Rising Water

- Pressure—Force and Area
- The Cartesian Diver Submarines
- Connections

Activities 27-30—Heat, Expansion, and the Movement of Molecules

- Expanding Air With Heat—the Rising Balloon
- Heat and the Movement of Molecules
- The Egg in the Bottle
- The Collapsed Can
- Connections

Activities 31-35—The Transfer of Heat

- Heat—the Density of Hot and Cold Water
- Heat Transfer—Convection
- Heat Transfer—Conduction
- Heat Transfer—Radiation
- Heat and Insulation
- Connections

Activities 36-42—Flight and Aerodynamics

- Speed and Force of Air
- The Ball and the Funnel
- The Card and the Spool
- Airplane Wings—the Flight of Airplanes
- The Flattened Card
- Tornado in a Bottle
- The Atomizer
- Connections

Activities 43-47—The Speed of Falling Bodies

- Falling Bodies—Does Weight Make a Difference?
- Falling Bodies—Does Size, Shape, or Weight Make a Difference?
- Falling Bodies and Air Resistance
- Swinging Pendulums—the Length
- Swinging Pendulums—the Weight
- Connections

Activities 48-49—Graphing, The Flight of Helicopters, and Controlling Variables

- Twirling Copters!
- More Twirling Copters!
- Connections

Activities 50-52—The Flight of Rockets and Action-Reaction

- Rocket Power
- More Rocket Power!
- Two-state Balloon Rockets!
- Connections

Activities 53-58—Inertia and the Flight of Satellites

- Inertia—Riding in Cars
- The Nickel, the Card, and the Cup
- Tricky Nickels
- The Glass of Water and the Paper
- The Sock on the String
- Whirling Water!
- Connections

Activities 59-63—Surface Tension

- Domed Pennies
- Sticky Water!
- Less Sticky Water!
- The Funnel and Soapy Water
- Racing Pepper!
- Connections

Activities 65-65—Bubbles

- Big Bubbles
- Enormous Bubbles

Activities 66-69—Sound

- Sound Vibrations
- Traveling Sound
- Variations in Sound
- Connections

Activities 69-73—Light—Reflection and Refraction

- How We See Objects
- The Path of Light
- The Rising Nickel
- The Broken Pencil
- Changing an Arrow's Direction
- Connections

Activities 74-80—Magnetism and Electricity

- A Magnet's Poles
- Magnetic Fields
- What Kinds of Objects Are Magnetic?
- Making an Electromagnet
- Static Electricity
- Electrical Circuits
- What Completes a Circuit?
- Connections
- Glossary
- Teacher Help Pages
