Hi, I am Dr. Jennifer Rivera, a forensic scientist. **DNA** is an important tool we use in criminal investigation. But what exactly is **DNA**? Join me as we take an inside look into the language of life called **DNA**, a complex code written by the Creator of the universe.

Fearfully and wonderfully made are you,
the Bible tells us this and we know it is true.
The Bible can be trusted from cover to cover,
for it is spoken by God; above Him is no other.

There are over 300
verses in the Bible
that talk about
creation and
God as the
Creator.

In the beginning, God created
information in all living things,
A unique DNA code,
spoken by the King of Kings.

Humans, plants,
bacteria, and
animals have
DNA.

"DNA is a molecule which contains
the biological instructions that make
each species unique."

—Human Genome Project
