

Concepts of Medicine & Biology – 1/2 Credit

Recommended Grades: 7-9

Includes: *Exploring the World of Biology; Exploring the History of Medicine*

<http://www.nlpg.com/concepts-of-medicine-biology-curriculum>

Alternative Names:

- Survey of Medicine & Biology
- Medicine & Biology

Parents may assign this as a Science or Elective credit. The description “with Lab” may be added to course title if student completes about 15 hours of lab work. We highly recommend adding the Lab work to this course.

This is a great science course for that student who wants something other than the more traditional science courses. It is an “out of the box” type course that will liven up your student’s transcript. It is especially good for any high school student who is planning on a career in the medical field. This course can easily be paired with another ½ year course in this series for a full year course.

It is expected that high school students will complete many of the extra Activities while younger students will complete fewer of them.

Optional Labs

We highly recommend the purchase of good microscope and general slide sets.

Scientific coloring books may also be helpful.

(Materials Available from www.HomeTrainingTools.com)

The History of Medicine

BE-BACKIT Bacteria Experiment Kit
CM-HUMXRAY True-to-Life Human X-Rays Set

Recommended Microscope Slides:

MS-SETHPAT Human Pathology Slide Set

The World of Biology

DE-KIT01 Introductory Dissection Kit
(Intermediate & Advanced Kits available)
PM-OWLKIT Owl Pellet Study Kit
LM-BFLYGAR Butterfly Garden

Recommended Microscope Slides:

MS-SETBIO Biology Slide Set
