Where Creation Inspires Education

Since 1975, Master Books has been providing educational resources based on a biblical worldview to students of all ages. At the heart of these resources is our firm belief in a literal six-day creation, a young earth, the global Flood as revealed in Genesis 1–11, and other vital evidence to help build a critical foundation of scriptural authority for everyone. By equipping students with biblical truths and their key connection to the world of science and history, it is our hope they will be able to defend their faith in a skeptical, fallen world.

If the foundations are destroyed, what can the righteous do?

Psalm 11:3; NKJV

As the largest publisher of creation science materials in the world, Master Books is honored to partner with our authors and educators, including:

Ken Ham of Answers in Genesis

Dr. John Morris and Dr. Jason Lisle of the Institute for Creation Research

Dr. Donald DeYoung and Michael Oard of the Creation Research Society

Dr. James Stobaugh, John Hudson Tiner, Rick and Marilyn Boyer, Dr. Tom Derosa, and so many more!

Whether a pre-school learner or a scholar seeking an advanced degree, we offer a wonderful selection of award-winning resources for all ages and educational levels.

*But sanctify the Lord God in your hearts, and always be ready
to give a defense to everyone who asks you a reason for the hope
that is in you, with meekness and fear.*

1 Peter 3:15; NKJV

Permission to Copy

Permission is granted for copies of reproducible pages from this text to be made for use within your own homeschooling family activities or for small classrooms of ten or fewer students. Material may not be posted online, distributed digitally, or made available as a download. Permission for any other use of the material must be requested prior to use by email to the publisher at nlp@newleafpress.net.

Lessons for a 36-week course!

Overview: This *Survey of Science Specialties PLP* contains materials for use with *The Archaeology Book*, *The Geology Book*, *The Cave Book*, and *The Fossil Book* in the Wonders of Creation series. Materials are organized by each book in the following sections:

	Study guide worksheets	Suggested Optional Science Lab See page 14
	Quizzes	
	Semester Test & Final Exams	
	Answer Key	

Features: Each suggested weekly schedule has five easy-to-manage lessons which combine reading, worksheets, and vocabulary-building opportunities including an expanded glossary for each book. Designed to allow your student to be independent, materials in this resource are divided by section so you can remove quizzes, tests, and answer keys before beginning the coursework. As always, you are encouraged to adjust the schedule and materials as you need to in order to best work within your educational program.

Workflow: Students will read the pages in their book and then complete each worksheet. Students should also complete the Activities on each worksheet if possible. Tests and quizzes are given at regular intervals with space to record each grade.

Lesson Scheduling: Space is given for assignment dates. There is flexibility in scheduling. While each quarter has 45 days of assignments, they do not have to be given M-F. Some students may prefer to do more assignments each day, allowing for breaks on other days. Each week listed has five days but due to vacations the school work week may not be M-F. Please adapt the days to your school schedule. As the student completes each assignment, he/she should put an “X” in the box.

	Approximately 30 to 45 minutes per lesson, five days a week
	Includes answer keys for worksheets, quizzes, and semester exams
	Each worksheets include one or more of the following: Words to Know, questions, activities, research options
	Quizzes are included to help reinforce learning and provide assessment opportunities; optional semester exams included
	Designed for grades 10 to 12 in a one-year course to earn 1 science credit

Course includes books from creationist authors with solid, biblical worldviews:

Emil Silvestru (*The Cave Book*) is a prospecting and exploration geologist. He is a cave expert born in Transylvania, Romania where he began exploring caves at the age of 12. He is currently a writer, researcher, and speaker.

Dr. Gary Parker (*The Fossil Book*) After starting his 30-year college teaching career as a non-Christian evolutionist, Dr. Gary Parker became a zealous creationist. He lectures worldwide for both ICR and Answers in Genesis, has written five science textbooks and numerous creation books, in addition to appearing in numerous films, videos and television programs.

David Down (*The Archaeology Book*) has been a field archaeologist for over four decades, excavating regularly in Israel, and involved in numerous digs over the years. He offers special insight into the connections of archaeology and biblical history.

Dr. John D. Morris (*The Geology Book*) received his Doctorate in Geological Engineering at the University of Oklahoma. He held the position of Professor of Geology before being appointed president of the Institute for Creation Research in 1996. He currently travels and speaks on the topic of creation science.

Survey of Science Specialities

Course Description

This is the suggested course sequence that allows two core areas of science to be studied per semester. You can change the sequence of the semesters per the needs or interests of your student; materials within each semester are independent of one another to allow flexibility.

Quarter 1: Archaeology

The Archaeology Book takes you on an exciting exploration of history and ancient cultures. You will learn both the techniques of the archaeologist and the accounts of some of the richest discoveries of the Middle East that demonstrate the accuracy and historicity of the Bible. You will unearth: how archaeologists know what life was like in the past, why broken pottery can tell more than gold or treasure can, some of the difficulties in dating ancient artifacts, how the brilliance of ancient cultures demonstrates God's creation, history of ancient cultures, including the Hittites, Babylonians, and Egyptians, the early development of the alphabet and its impact on discovery, and the numerous archaeological finds that confirm biblical history.

Quarter 2: Geology

The Geology Book will teach: what really carved the Grand Canyon, how thick the Earth's crust is, why the Earth is unique for life, the varied features of the Earth's surface—from plains to peaks, how sedimentary deposition occurs through water, wind, and ice, effects of erosion, ways in which sediments become sedimentary rock, fossilization and the age of the dinosaurs, the powerful effects of volcanic activity, continental drift theory, radioisotope and carbon dating, and geologic processes of the past. Our planet is a most suitable home. Its practical benefits are also enhanced by the sheer beauty of rolling hills, solitary plains, churning seas and rivers, and majestic mountains—all set in place by processes that are relevant to today's entire population of this spinning rock we call home.

Quarter 3: Caves

Explore deep into the hidden wonders beneath the surface as cave expert Dr. Emil Silvestru takes you on an illuminating and educational journey through the mysterious world of caves. Discover the beautiful, thriving ecology, unique animals, and fragile balance of this little-seen ecosystem in caves from around the globe. *The Cave Book* will teach you about: a creationary model for how caves form, a history of how caves have been used by humans for shelter and worship, how old caves really are, the surprising world of Neanderthals and their connection to modern humans, how to make a stone axe and other early tools, just how long it really takes for cave formations to form, unusual animals that make caves their home, examples of how connected caves are to mythology of many cultures, the climate and geologic processes and features of caves and karst rocks, the process by which ice caves form, exploration, hazards, and record-setting caves, how caves form, and features above and below the surface.

Quarter 4: Fossils

Fossils have fascinated humans for centuries. But where did they come from, and how long have they been around? These and many other questions are answered in this remarkable book. *The Fossil Book* will teach you about: the origin of fossils, how to start your own fossil collection, what kinds of fossils can be commonly found, the age of fossils, how scientists find and preserve fossils, how to identify kinds of fossils, how the Flood affected fossil formation, the Geologic Column Diagram, the difference between evolutionists' and creationists' views on fossils, the "four Cs" of biblical creation, the different kinds of rocks fossils are found in, and coal and oil formation. Learning about fossils, their origins, and how to collect them can be both fun and educational.

First Semester Suggested Daily Schedule

Date	Day	Assignment	Due Date	✓	Grade
First Semester-First Quarter — <i>The Archaeology Book</i>					
Week 1	Day 1	Read Pages 6-19 • <i>The Archaeology Book</i> • (AB)			
	Day 2	What Archaeology is . . . - Words to Know Archaeology Ch1: Worksheet 1 • Page 17 • (LP)			
	Day 3	What Archaeology is All About - Questions Archaeology Ch1: Worksheet 1 • Page 18 • (LP)			
	Day 4	What Archaeology is All About - Activities Archaeology Ch1: Worksheet 1 • Page 18 • (LP)			
	Day 5	Read Pages 20-29 • (AB)			
Week 2	Day 6	Land of Egypt - Words to Know Archaeology Ch2: Worksheet 1 • Page 19 • (LP)			
	Day 7	Land of Egypt - Questions Archaeology Ch2: Worksheet 1 • Page 19 • (LP)			
	Day 8	Land of Egypt - Activities Archaeology Ch2: Worksheet 1 • Page 20 • (LP)			
	Day 9	Archaeology Book Chapters 1-2 Study Day			
	Day 10	Archaeology Book Ch1-2 Quiz 1 • Page 99 • (LP)			
Week 3	Day 11	Read Pages 30-35 • (AB)			
	Day 12	The Hittites - Words to Know, Questions Archaeology Ch3: Worksheet 1 • Page 21 • (LP)			
	Day 13	The Hittites - Activities Archaeology Ch3: Worksheet 1 • Page 22 • (LP)			
	Day 14	Read Pages 36-41 • (AB)			
	Day 15	Ur...Chaldees - Words to Know, Questions Archaeology Ch4: Worksheet 1 • Page 23 • (LP)			
Week 4	Day 16	Ur of the Chaldees - Activities Archaeology Ch4: Worksheet 1 • Page 24 • (LP)			
	Day 17	Read Pages 42-45 • (AB)			
	Day 18	Assyria - Words to Know, Questions Archaeology Ch5: Worksheet 1 • Page 25 • (LP)			
	Day 19	Assyria - Activities Archaeology Ch5: Worksheet 1 • Page 26 • (LP)			
	Day 20	Archaeology Book Chapters 3-5 Study Day			
Week 5	Day 21	Archaeology Book Ch3-5 Quiz 2 • Page 101 • (LP)			
	Day 22	Read Pages 46-51 • (AB)			
	Day 23	Babylon:...Gold - Words to Know, Questions Archaeology Ch6: Worksheet 1 • Page 27 • (LP)			
	Day 24	Babylon: City of Gold - Activities Archaeology Ch6: Worksheet 1 • Page 28 • (LP)			
	Day 25	Read Pages 52-59 • (AB)			

Date	Day	Assignment	Due Date	✓	Grade
Week 6	Day 26	Persia - Words to Know, Questions Archaeology Ch7: Worksheet 1 • Page 29 • (LP)			
	Day 27	Persia - Activities Archaeology Ch7: Worksheet 1 • Page 30 • (LP)			
	Day 28	Read Pages 60-69 • (AB)			
	Day 29	Petra - Words to Know, Questions Archaeology Ch8: Worksheet 1 • Page 31 • (LP)			
	Day 30	Petra - Activities Archaeology Ch8: Worksheet 1 • Page 32 • (LP)			
Week 7	Day 31	Chapter 6-8 Study Day			
	Day 32	Chapter 6-8 Quiz 3 • Page 103 • (LP)			
	Day 33	Read Pages 70-77 • (AB)			
	Day 34	The Phoenicians - Words to Know, Questions Archaeology Ch9: Worksheet 1 • Page 33 • (LP)			
	Day 35	The Phoenicians - Activities Archaeology Ch9: Worksheet 1 • Page 34 • (LP)			
Week 8	Day 36	Read Pages 78-83 • (AB)			
	Day 37	Dead Sea Scrolls - Words to Know, Questions Archaeology Ch10: Worksheet 1 • Page 35 • (LP)			
	Day 38	Dead Sea Scrolls - Activities Archaeology Ch10: Worksheet 1 • Page 36 • (LP)			
	Day 39	Read Pages 84-93 • (AB)			
	Day 40	Israel - Words to Know, Questions Archaeology Ch11: Worksheet 1 • Page 37 • (LP)			
Week 9	Day 41	Israel - Activities Archaeology Ch11: Worksheet 1 • Page 38 • (LP)			
	Day 42	Archaeology Book Chapters 6-11 Study Day			
	Day 43	Archaeology Ch 9-11 Quiz 4 • Page 105 • (LP)			
	Day 44	Archaeology Book Chapters 1-11 Study Day			
	Day 45	Archaeology Book Exam (optional) • Page 107 • (LP)			
First Semester-Second Quarter — <i>The Geology Book</i>					
Week 1	Day 46	Read Pages 4-10 • <i>The Geology Book</i> • (GB) Planet Earth - Words to Know, Questions Geology Intro. & Ch1: Worksheet 1 • Page 41 • (LP)			
	Day 47	Planet Earth - Activities Geology Intro. & Ch1: Worksheet 1 • Page 42 • (LP)			
	Day 48	Read Pages 10-19 • (GB)

Suggested Optional Science Lab

There are a variety of companies that offer science labs that complement our courses. These items are only suggestions, not requirements, and they are not included in the daily schedule. We have tried to find materials that are free of evolutionary teaching, but please review any materials you may purchase. The following items are available from www.HomeTrainingTools.com.

Questions

1. What does the word archaeology mean?
2. For what three reasons were cities built on hills?
3. When did people first start using coins?
4. Why are inscriptions found on ancient pottery valuable to archaeologists?
5. What are the four main periods of archaeological time?

Activities

1. See if you can find a small piece of damp clay, or plasticine, and with the end of a screwdriver impress your name on it. This would then look like a seal impression.
2. Take some everyday items and set up an archaeological treasure hunt. Have an adult bury the items in shallow holes, covering them with a thin layer of soil. Carefully go about digging them up and classifying your treasures in a journal.
