

## **Concepts of Earth Science & Chemistry – 1/2 Credit**

**Recommended Grades: 7-9**

**Includes:** *Exploring Planet Earth; Exploring the World of Chemistry*

<http://www.nlpg.com/concepts-of-earth-science-chemistry-curriculum>

Alternative Names:

- Survey of Earth Science & Chemistry
- Earth Science & Chemistry

Parents may assign this as a Science or Elective credit. The description “with Lab” may be added to course title if student completes about 15 hours of lab work.

This is a great science course for that student who is better at concepts than calculations. It is an “out of the box” type course that will liven up your student’s transcript. This course can easily be paired with another ½ year course in this series for a full year course.

It is expected that high school students will complete many of the extra Activities while younger students will complete fewer of them.

Optional Labs

(Materials Available from [www.HomeTrainingTools.com](http://www.HomeTrainingTools.com))

*Exploring Planet Earth*

RM-ORNCOMP Orienteering Compass

*The World of Chemistry*
