How to Create a Lapbook

Dear Parents and Teachers,

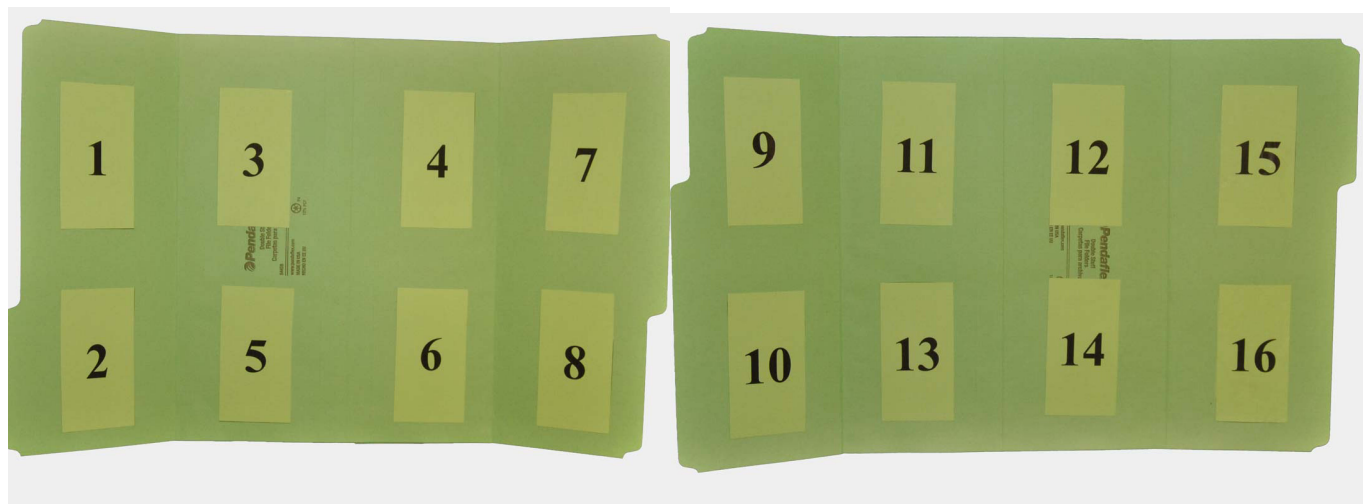

This Lapbook CD provides seven lapbook templates. Students will create a lapbook for each composer, allowing them to connect with the music and the lives of these musicians in a hands-on way. These easy-to-assemble lapbooks will help solidify in your child's mind musical concepts, character traits, world geography, and information on the composers' lives.

Assembly Directions:

Each of the seven lapbooks introduced in this series are folded the same way. To assemble each lapbook follow these instructions:

1. Open two regular size file folders.
2. Fold each side in to meet in the middle.
3. Once the folders have been re-folded into lapbook-style, place them back to back and attach by taping or gluing the backs of each folder together.
4. You will then glue each activity into these folders to make your lapbook.

Each section in the lapbook has been assigned a number. These sections are referred to for placement of the lapbook activities throughout the Music Appreciation for the Elementary Grades book.
